

Activity Reflection

Pros: This is a very popular song choice for the kids. This particular song incorporates music **and** movement. It challenges them to follow the directions as stated in the song. They welcome the challenge of the song going faster and faster.

Cons: I need to have a more thought provoking entrance into this activity.

Plan: I should ask more questions. "Can you show me how a tree moves? If YOU were a tree, where would your leaves be? How about your trunk?"
I will plan to do this activity again.
